Project:	Weathertex National based projects	
Substrate:	Weathertex Natural (unprimed) Panels – (Natural Hardwood timber product)	PAGE 1 OF 2
Interior/Exterior:	Exterior	VERSION 1 OCTOBER 2017
Finish / System:	Wattyl Solagard® & Weathergard® Paint & Stain System	

Product Features

The Weathertex, Solagard & Weathergard Paint & Stain System is a premium quality system consisting of a coloured waterbased <u>Basecoat</u> (Solagard) and a waterbased stain <u>Topcoat</u> (Weathergard). Ideal system for enhancing the raw woodgrain appearance found in the Weathertex Natural (unprimed) Panels. Designed to be applied by professional painters for the Commercial and Builders market.

Surface Preparation

Ensure all panels are installed according to the Weathertex installation requirements. The surface must be dry and clean, free from dirt, grease, oil, mould, and other contaminants that may interfere with adhesion before painting. Remove all nibs and loose surface material as required.

Raw undressed timber panels to be treated as for new work. Ref to Technical Data Sheet (TDS) D4.14

Coatings System

Additional Notes

- Colour Choice, as per the Weathertex recommended colour combinations.
- Ref to table 1 & 2 below for the basecoat / topcoat colour and stain combined system.
- * Pine imitation coated panels are prepared with 2 basecoats of Solagard low sheen Amaretti A14w, then topcoated with ONLY one coat of Weathergard Decking Stain Driftwood. Stain in this case is applied by brush randomly and then any excess stain wipe off.

Recommended Uses

For exterior use only.

For use on properly installed Weathertex Natural Panels only.

Cautionary Notes

Caution: Provide adequate ventilation during use.

Application should not be carried out if the air temperature or the substrate temperature is below 10°C or above 35°C. The temperature must not fall below 10°C during the drying process.

REFER TO PRODUCT TECHNICAL DATA SHEETS AND SAFETY DATA SHEETS FOR FURTHER INFORMATION ON THE PRODUCTS MENTIONED IN THIS SPECIFICATION SHEET

- 1. This information is provided with respect to the listed Wattyl products. Valspar Paint (Australia) recommends that:
- (a) you review the Technical Data Sheets (TDS) and Safety Data Sheets (SDS) before you use or handle the product; (b) the product be used only in accordance with the information provided by Valspar; (c) the product be transported, stored and handled in accordance with the information on the SDS and relevant TDS; and (d) you thoroughly test the product, using the recommended application method on a sample of intended substrate, before using the product.
- 2. The information in this specification sheet was prepared using information gathered during product development. While Valspar endeavours to update this information and maintain the accuracy and currency of its contents, Valspar cannot guarantee that the information provided is wholly comprehensive.
- 3. Valspar recommends that you conduct such additional investigations as may be necessary to satisfy yourself of the accuracy, currency and comprehensiveness of the information on which you rely in using and handling the product. If you require further information please contact your nearest Valspar Office.
- 4. To the full extent permitted by law, Valspar's liability for breach of a condition or warranty implied into the contract for sale between Valspar and you by law is limited at Valspar's election to: (a) the replacement of the product; or (b) payment of the cost of replacing the product.
